flower in PNG

THANK YOU LADIES MINISTRIES USA!!!

...For their annual support of our Bible College program. With out this assistance these students would not be receiving the necessary teaching to equip for their part in the great harvest in Papua New Guinea. Above is the recent class of 67 students. All desks were occupied and many had to use another chair as their desk.

REACHING INTO NEW AREAS

National Secretary Br Sinakadi and wife travelled to Alotau in the Mine Bay area with a sister from the church in Darwin, Australia to testify to her mother. This is part of his report...

*“ Upon arrival at the vil-
lage, we were met by her
family members and had a
beautiful lunch set on an*

open space under a mango tree. In the night we had family devotion where I was given the privilege to share the word of God to the people who attended—about 30 in number. The next day in the morning, we had a church service. I preached the salvation message and we baptized 4 souls in the name of Jesus Christ for the remission of sins.

Left: A meal and a service under
the mango tree.

tional Secretary and wife, Sis
Carver and Richard J Carver
(son) at the airport

Church opening in Capital City, Port Moresby

was celebrated in style with balloons and streamers and a large dinner for all. This church began some years ago under a tree in a squatter settlement. The church building was entirely self-funded by the members.

Bro Carver and Pastor Nick Gende

The grandchildren at Hannah's dedication.
